Please Keep Carts Off Fairways & Slopes

On the Course with Doyle

Summer has definitely arrived and the Bermuda grass is loving these higher temperatures especially when it is accompanied with a little rainfall here and there. Now that the fairways have reached adequate coverage a growth regulator will be sprayed to control upright growth and reduce mowing frequency while providing a better playing surface. This may give the indication that the mowing height has been lowered when in fact the height has not been changed or maybe even raised slightly. The fairways on number 4 and 6 have already been treated due to the aggressive behavior of the particular Bermuda grass that is on these holes. Normally during the summer months these fairways need to be cut 3 to 4 times a week at a minimum which can be a problem if they become too wet due to rain. With the use of growth regulators we can cut the frequency in half. There may be some initial discoloration of the grass which is temporary. Each application suppresses growth for three to four weeks so multiple applications will be needed throughout the summer. The greens will also be treated with a growth regulator starting this month. The approach will differ slightly from the fairway treatments. Due to the sensitive nature of greens (disease, insects, drought etc.) small amounts of growth regulator will be applied on a weekly basis. This way if any of the above problems arise there will be ample growth to overcome the situation. Finally, now that the Bermuda grass has achieved an overall better health we will be making more herbicide applications to remove some of the unwanted summer weeds. Thank you and have a great Independence Day.

Please Call Ahead for Tee Times

Straight from Carl's Desk

We do not have any outings that will affect tee times this month. As always, it is strongly recommended to make a tee time before coming out to play, just because you play every Thursday at 10:00 does not mean that you will be able to play at that time.

We need your help and know everyone has enjoyed being able to ride in a cart by yourself, but we will require everyone to ride with someone. Unfortunately, the golf course does not like it. Golf carts do more damage to the course than anything else. **If you elect to ride by yourself, you will have to pay the single rider surcharge of \$5. If we see you riding by yourself when you could have rode with someone else, we will charge you the single rider fee of \$5 on your account.** We need to reduce the amount of carts on the course, for gas usage and wear on the carts and the course as well. Thank you for your help, understanding and cooperation.

Please help Doyle out by KEEPING THE CARTS OFF THE FAIRWAYS & GREEN SLOPES as much as possible! Golf cart traffic causes more damage than anything else on a golf course. This is a very important time for the golf course and we need your help! We thank you for your cooperation.

When buying something from the pro shop on your account or Carl Bucks, please make sure the pro shop attendant records it properly. It is real hard for them to remember who it was that made the purchase and what it was they bought. Thank you in advance.

If you ever have an issue with something, please don't hesitate to come and see me. If I am not around, please call my cell phone, 623-2833. I always look forward to talking to all of you. We thank you for your cooperation and support.
